Instead of the materials that HQ has sent us I propose we have an agenda, and the daily maximum analysis and some information on conditions at the border. I have attached draft copies of these for your review and comments. Please get me any comments/edits tomorrow.

Dave I need to talk to you soon about how we might tell HQ that we don't want to use their papers. I think these materials need to go out to Ecology this week as early as possible if we are going to keep the meeting date the 29th.
